Scott Bogner  
National Superconducting Cyclotron Laboratory / Department of Physics & Astronomy  
630 S Shaw Ln  
MSU Campus

Dear Scott,

It is with great pleasure that we announce Filomena Nunes as the recipient of the Inspirational Woman of the Year Award in the Professional Achievement category. We had many outstanding nominations for this year's prestigious recognition and the selection committee determined that Dr. Nunes undoubtedly captured the essence of this award. The selection committee stated that it is remarkably evident that Dr. Nunes has made significant contributions to the FRIB, her field of study, and all women in STEM. The committee was impressed by her impact on MSU's culture of excellence, but also the impact that Dr. Nunes has had globally.

The Center for Gender in Global Context (GenCen) is grateful that you chose to honor your colleague's accomplishments by nominating her for the Inspirational Woman of the Year Award. We encourage you to share the nomination packet with your nominee. We believe the nomination packet you prepared evidences the support and respect Dr. Nunes' colleagues have for her accomplishments on campus.

We intend to notify Dr. Nunes of her receipt of this award on Friday, January 13. If you would like to notify her yourself in a way that would be the most meaningful to her, please do so before that date.

Additionally, you, Dr. Nunes, and those who contributed support letters are cordially invited to join us for GenCen's Annual Reception, where the Inspirational Woman of the Year Awards will be presented, on **Friday, January 27, 2017** from 3:00PM—5:00PM in Room 303 International Center. We are pleased to recognize the contributions and accomplishments of NAME at this event.

Sincerely,
